

Advisory on Coronavirus (COVID-19)

Your health is important to us. If you are experiencing upper respiratory symptoms such as coughing, wheezing, and shortness of breath along with a fever, please contact your Primary Care Physician.

Preserving the health, safety and well-being of you, your loved ones and our staff is at the core of our hearts and actions. Therefore, we are limiting the number of in-person visits available at our office until April 20, 2020. During this time, we encourage our patients who need an appointment with Dr. Williams to schedule a telehealth visit.

To schedule an appointment/telehealth visit, please call our office at 904-900-3581. If you have general questions, please send an email to neekaw@urocoach.com. As we navigate this everchanging landscape, we appreciate your patience. We are working diligently to respond to every inquiry within 24 business hours.

We value our Urology Consultants, Inc families. We pray for your continued safety and health during this time.

In order to limit the spread of this virus, the World Health Organization recommends the following:

- Hands – wash them often with soap and water.
- Elbow – cough/sneeze into it.
- Face – do not touch it.
- Space – keep safe distance.
- Home – stay if you can.

Sincerely,

Your Care Team at Urology Consultants, Inc
